Professional Summary

Computer Science undergraduate with hands-on experience in building and enhancing **full stack applications**. Strong foundation in **Java, JavaScript, Python, SQL, backend APIs, and databases**. Comfortable working across backend and UI layers, debugging issues, and learning new technologies. Seeking a **Developer Internship** at BeeHyv Software Solutions with a long-term growth opportunity.

Technical Skills

- **Programming Languages:** JavaScript, Python, Java
- **Frontend:** React.js, HTML, CSS
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, SQL (queries, joins, filtering)
- **Operating Systems:** Linux fundamentals
- **Tools:** Git, GitHub, VS Code
- **Concepts:** Data Structures basics, debugging, SDLC, Agile

Projects

Real-Time Chat Application

MongoDB, Express.js, React.js, Node.js

- Developed a full stack real-time chat application enabling live user communication.
- Implemented REST APIs for authentication, messaging, and session management.
- Built responsive UI using React and handled real-time updates.
- Debugged backend and frontend issues to improve performance and reliability.
- Managed database operations and validated data consistency in MongoDB.

Virtual AI Assistant Web Application

MongoDB, Express.js, React.js, Node.js

- Built a MERN-based virtual assistant to process and respond to user queries.
- Integrated backend logic to handle user inputs and generate intelligent responses.
- Designed frontend components for seamless user interaction.
- Stored and retrieved user interaction data from MongoDB.
- Enhanced application functionality through continuous testing and improvements.

Education

Bachelor of Engineering (B.E.) – Computer Science Engineering

Chitkara University, Himachal Pradesh

CGPA: 8.93 / 10

Secondary School (Class X)

Aishwarya Vidya Niketan, Nepal

CGPA: 3.90 / 4.0

Certifications

- Python Foundation Certification
- SQL & Database Fundamentals

Soft Skills

- Strong problem-solving and debugging skills
- Willingness to learn new technologies
- Ownership of tasks and deadlines
- Effective communication and teamwork
